

Join One of the Fastest-Growing Professions in the U.S.

Registered Dental Assistant

For info or to enroll, contact Tami Russell trussell@pdi.org • 940.783.7270 • Enroll online at pdi.org

According to the Bureau of Labor Statistics, dental assisting is one of the fastest-growing occupations in the U.S. Dentists have voiced support for increasing the supply of trained professionals in an effort to improve patient care.

The Professional Development Institute/University of North Texas' Registered Dental Assistant program offers hands-on training during a 14-week program. Students meet two evenings per week and every other Saturday morning. The program consists of 160 total hours of training.

These hours include an important Externship which includes working/observing in a functioning dental facility. Train with x-ray systems and utilize dental practice software while preparing to take the State Licensing Exam at the conclusion of the program.

Curriculum Includes

Radiology, vital signs, patient care, four-handed dentistry, dental impressions, sterilization, infection control, delivery of dental materials, temporary crowns, CPR/AED.
