

Paralegal Certificate Program

Online Only Program Begins March 20, 2021

"The online paralegal program made it very easy for me to continue my education on my own time. The course material was very effective in covering and presenting the information needed for the course exams and tests, I never felt like I was being quizzed on information I had not learned. The instructors are very helpful and responsive to their students, overall a great online education experience."

Meagan Santoya

"As a busy mom of three, wife, and full time employee, the set up for this online course gave me the structured organization that I needed to stay on track with such ease. Well done, PDI! You made it easy for someone like myself to confidently succeed."

Cortney Gladney

"(I'm) so thankful to have been a part of such an incredible organization with PDI...I have been with the SBA since 2005...(It) is so very rewarding building relationships with so many, being able to do legal reviews of their SBA paperwork and then disburse funds to them to get them back to pre-disaster."

Darnell Duplessis

Why a Certificate Matters

According to the American Bar Association, becoming a "trained paralegal" is important because your working hours are billable to clients. Texas courts demand proof of education before a firm can bill for a paralegal's hours. PDI's Paralegal Certificate Program awards a certificate that serves as educational proof.

Materials Included

The program fee of \$2,225 includes more than \$500 of textbooks - materials that are **YOURS TO KEEP**. PDI will furnish all study guides, notebooks and handouts. Students use these materials on the job. Here's a list of materials. Visit pdi.org for more information on these texts.
