

Join One of the Fastest-Growing Professions in the U.S.

Registered Dental Assistant

For info or to enroll, contact Tami Russell trussell@pdi.org • 940.783.7270 • Enroll online at pdi.org

According to the Bureau of Labor Statistics, dental assisting is one of the fastest-growing occupations in the U.S. Dentists have voiced support for increasing the supply of trained professionals in an effort to improve patient care.

The Professional Development Institute/University of North Texas' Registered Dental Assistant program offers hands-on training during a 16-week program. Students meet two evenings per week and a couple of select Saturday mornings.

These hours include an important Externship which includes working/observing in a functioning dental facility. Train with x-ray systems and utilize dental practice software while preparing to take the State Licensing Exam at the conclusion of the program.

Curriculum Includes

Radiology, vital signs, patient care, four-handed dentistry, dental impressions, sterilization, infection control, delivery of dental materials, temporary crowns, CPR/AED.
